WHAT IF_

TOUGH WAS ALWAYS ON CALL?

Got a major to-do list? No problem. With Frontier,® you've got a partner that's up to the biggest challenges. It's a mid-size truck with full-size attitude and plenty of engine muscle and towing capacity[1] to get the job done. A fully boxed ladder frame and advanced off-road technology come standard, so no matter what you're doing, you can do it easily. King Cab® or Crew Cab, there's room for work and play. And with the Desert Runner® or PRO-4X® models, you choose when to cut a trail from the highway to the hills. The 2015 Nissan Frontier.®

Nissan Frontier® PRO-4X® King Cab® shown in Lava Red.

[1] See Nissan Towing Guide and Owner's Manual for proper use.

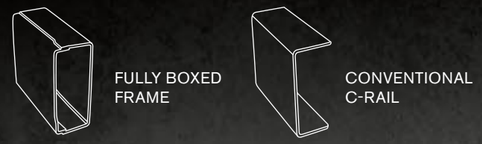
Nissan Frontier® SV V6 King Cab® shown in Night Armor with accessory Splash Guards.

Information Provided by:
DEALER

Nissan Frontier® SL Crew Cab shown in Night Armor with optional equipment and accessory Splash Guards.

NISSAN KNOWS THAT FOUR WALLS ARE STRONGER THAN THREE.

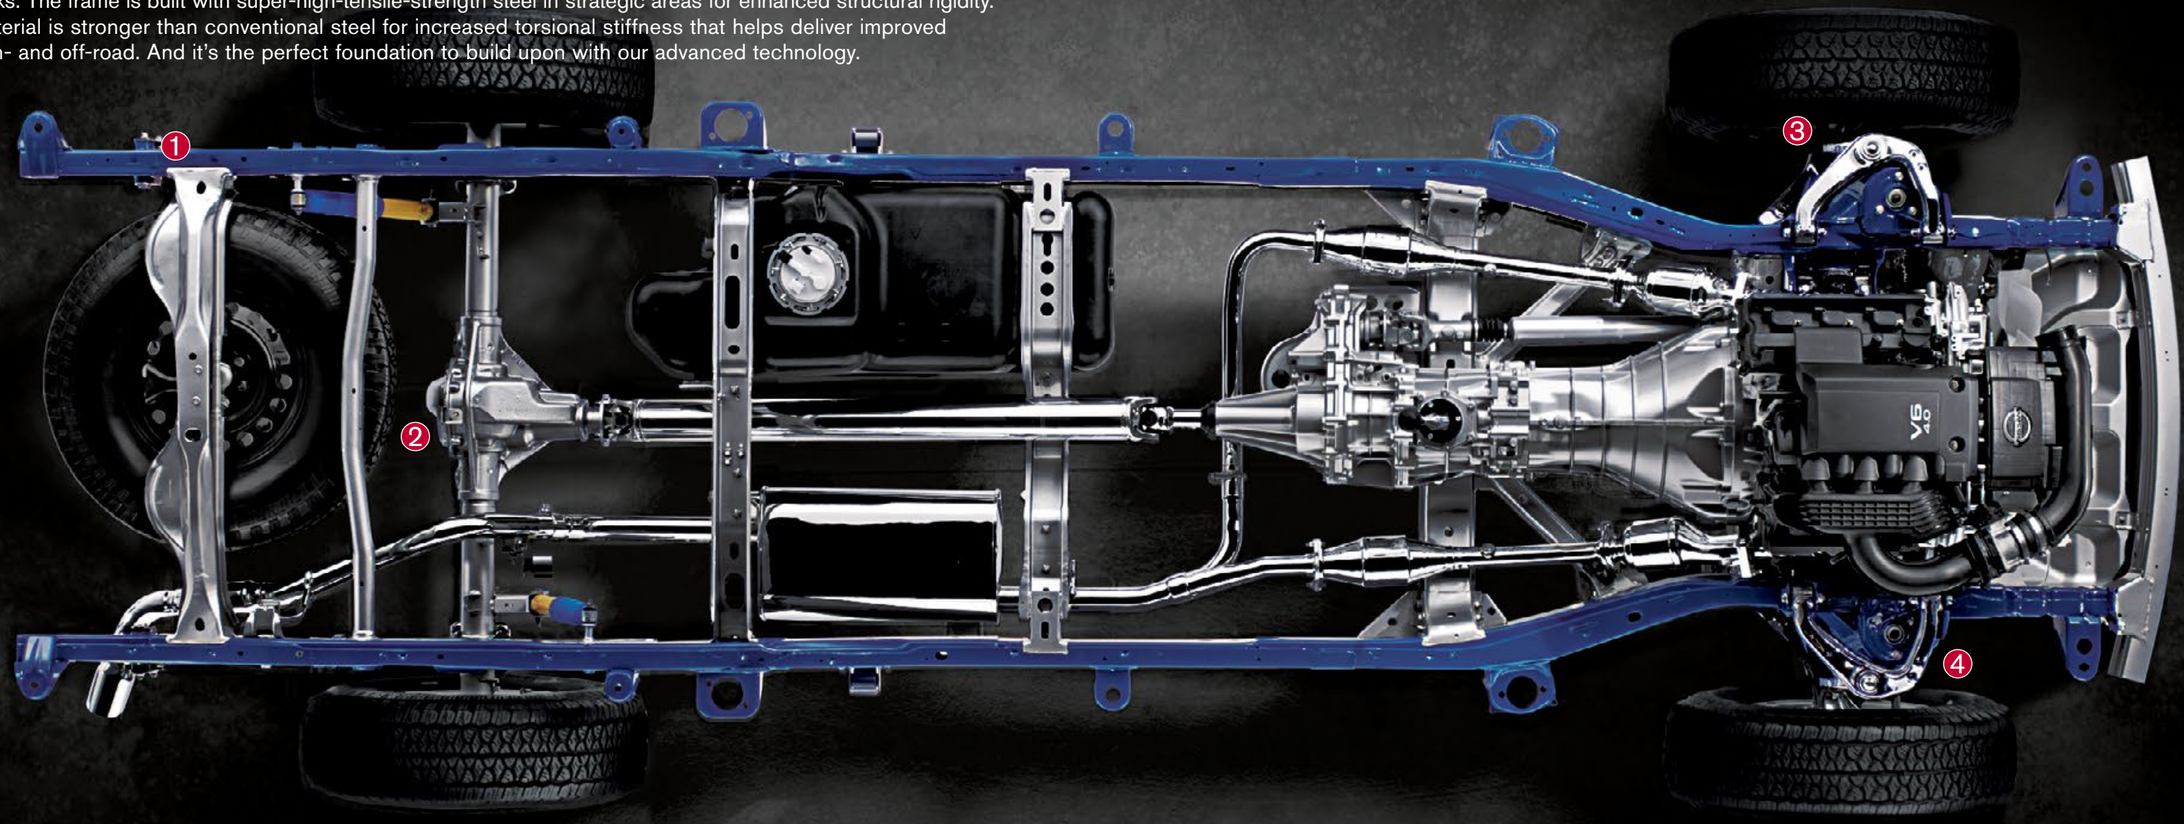
That's why Frontier® features a full-length, fully boxed ladder frame instead of the 3-sided, open C-shape rails found on some other trucks. The frame is built with super-high-tensile-strength steel in strategic areas for enhanced structural rigidity. This rugged material is stronger than conventional steel for increased torsional stiffness that helps deliver improved performance, on- and off-road. And it's the perfect foundation to build upon with our advanced technology.



Anti-lock Braking System (ABS) rapidly pumps the brakes during hard braking to help keep your wheels from locking up, helping you steer around an obstacle.

Electronic Brake force Distribution (EBD) senses additional weight, whether it's a full cargo bed or a full tank of gas, and sends extra force to the rear brakes.

Brake Override Technology. Standard on every Frontier,® it's designed to help slow down your vehicle and bring it to a stop in an emergency. It works by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.



① Overslung rigid leaf-spring rear suspension
② Available heavy-duty Dana® rear axle
③ 4-wheel vented disc brakes with Anti-lock Braking System (ABS)
④ Steel double-wishbone front suspension

Vehicle Dynamic Control (VDC). Also known as electronic stability control, VDC monitors driver inputs and vehicle motion and helps compensate for oversteer or understeer to help keep you on your steered path.[1, 2]

Active Brake Limited Slip (ABLS). To help keep your wheels from spinning, Frontier® offers ABLS. This system senses when a wheel begins to slip, then automatically brakes the slipping wheel and sends additional power to the wheel (or wheels on 4x4 models) with the best traction.[2]

Some components have been chrome-plated or painted for display purposes only. [1]VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. [2]Standard on all models. Dana® is a registered trademark of Dana Corporation.

CAPABILITY IS IN YOUR CORNER.

Power – either you've got it, or you don't. And with Frontier,® you've got it in a big way. With an available 4.0-liter V6 engine packing 261 horsepower, your V6 is chomping at the bit. And with a massive, best-in-class 281 lb-ft of torque,[1] you can tow or haul just about anything you need to bring along.[2] Maybe it's because we're a company that loves to compete – off-road, on the racetrack, even in the showroom. But wherever we win, we're happy to share the prize with you.

261
HORSEPOWER

281
LB-FT OF TORQUE

6,500
LBS. MAX TOWING[2]

V6 power. The available 24-valve 4.0-L V6 works its magic with advanced technology, including a lightweight aluminum engine block, advanced valve timing system, variable intake, and race-bred friction-reducing technology.

A 4-cylinder that feels like a 6. Frontier® also offers a 2.5-L 4-cylinder that pumps out 152 horsepower, 171 lb-ft of torque, and features a compact balancer system to deliver the smoothness of a V6.

Gear up. You can harness the 4-cylinder's power through a 5-speed manual transmission or an available 5-speed automatic. The V6 is available with either a 6-speed manual or 5-speed automatic transmission.

[1] *Ward's* Light Vehicle Market Segmentation. 2015 Frontier® vs. 2015 Small Pickup Class. [2] King Cab® 4x2 models with V6. 7-pin connector trailer wire harness and tow hitch receiver required, both sold separately. See Nissan Towing Guide and Owner's Manual for proper use. Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

SHAKE UP SOME SAND.

Looking for some major attitude? The Desert Runner® trim serves it up with looks that thrill. Amp up your cool factor with 16" 6-spoke aluminum-alloy wheels, a satin chrome grille, and details like fog lights and a body-color rear bumper. Bilstein® off-road performance shocks and 265/75R16 mud- and snow-rated all-terrain tires maximize your potential. And a unique bedside decal tops it off – just before you leave them in the dust.

DESERT RUNNER®

Dialed in. Get a new perspective inside as well with high-visibility white-faced gauges and unique embroidered sport cloth front seats, including an 8-way adjustable driver's seat. Endure even the longest trek with a USB input for your iPod® and steering wheel-mounted audio controls.[1]

Nissan Frontier® Desert Runner® King Cab® shown in Glacier White with accessory Splash Guards.

[1]Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. iPod® is a registered trademark of Apple, Inc. All rights reserved. iPod® not included. Bilstein® is a registered trademark of ThyssenKrupp Bilstein GmbH.

TREAT ’EM LIKE PEBBLES.

The ultimate off-road Frontier,® the PRO-4X.® Exhibit championship form with unrivaled gear, including Bilstein® off-road performance shocks, an electronic locking rear differential, 4-wheel Active Brake Limited Slip (ABLS), skid plates, and 265/75R16 mud- and snow-rated all-terrain tires. Add in 16" 6-spoke aluminum-alloy wheels, fog lights, and an exclusive interior, and you’ve got a winning combination, inside and out.

PRO-4X®

Hill start assist. When starting on steep hills from a stop, hill start assist will help keep you from rolling backwards. It holds brake pressure for a few seconds, allowing you time to switch from the brake pedal to the accelerator.[1]

Hill descent control. When driving down a steep grade in 4WD, hill descent control can help. Just push the button, ease your foot from the accelerator, and this system automatically maintains speed and brake pressure to help provide a controlled descent.[1]

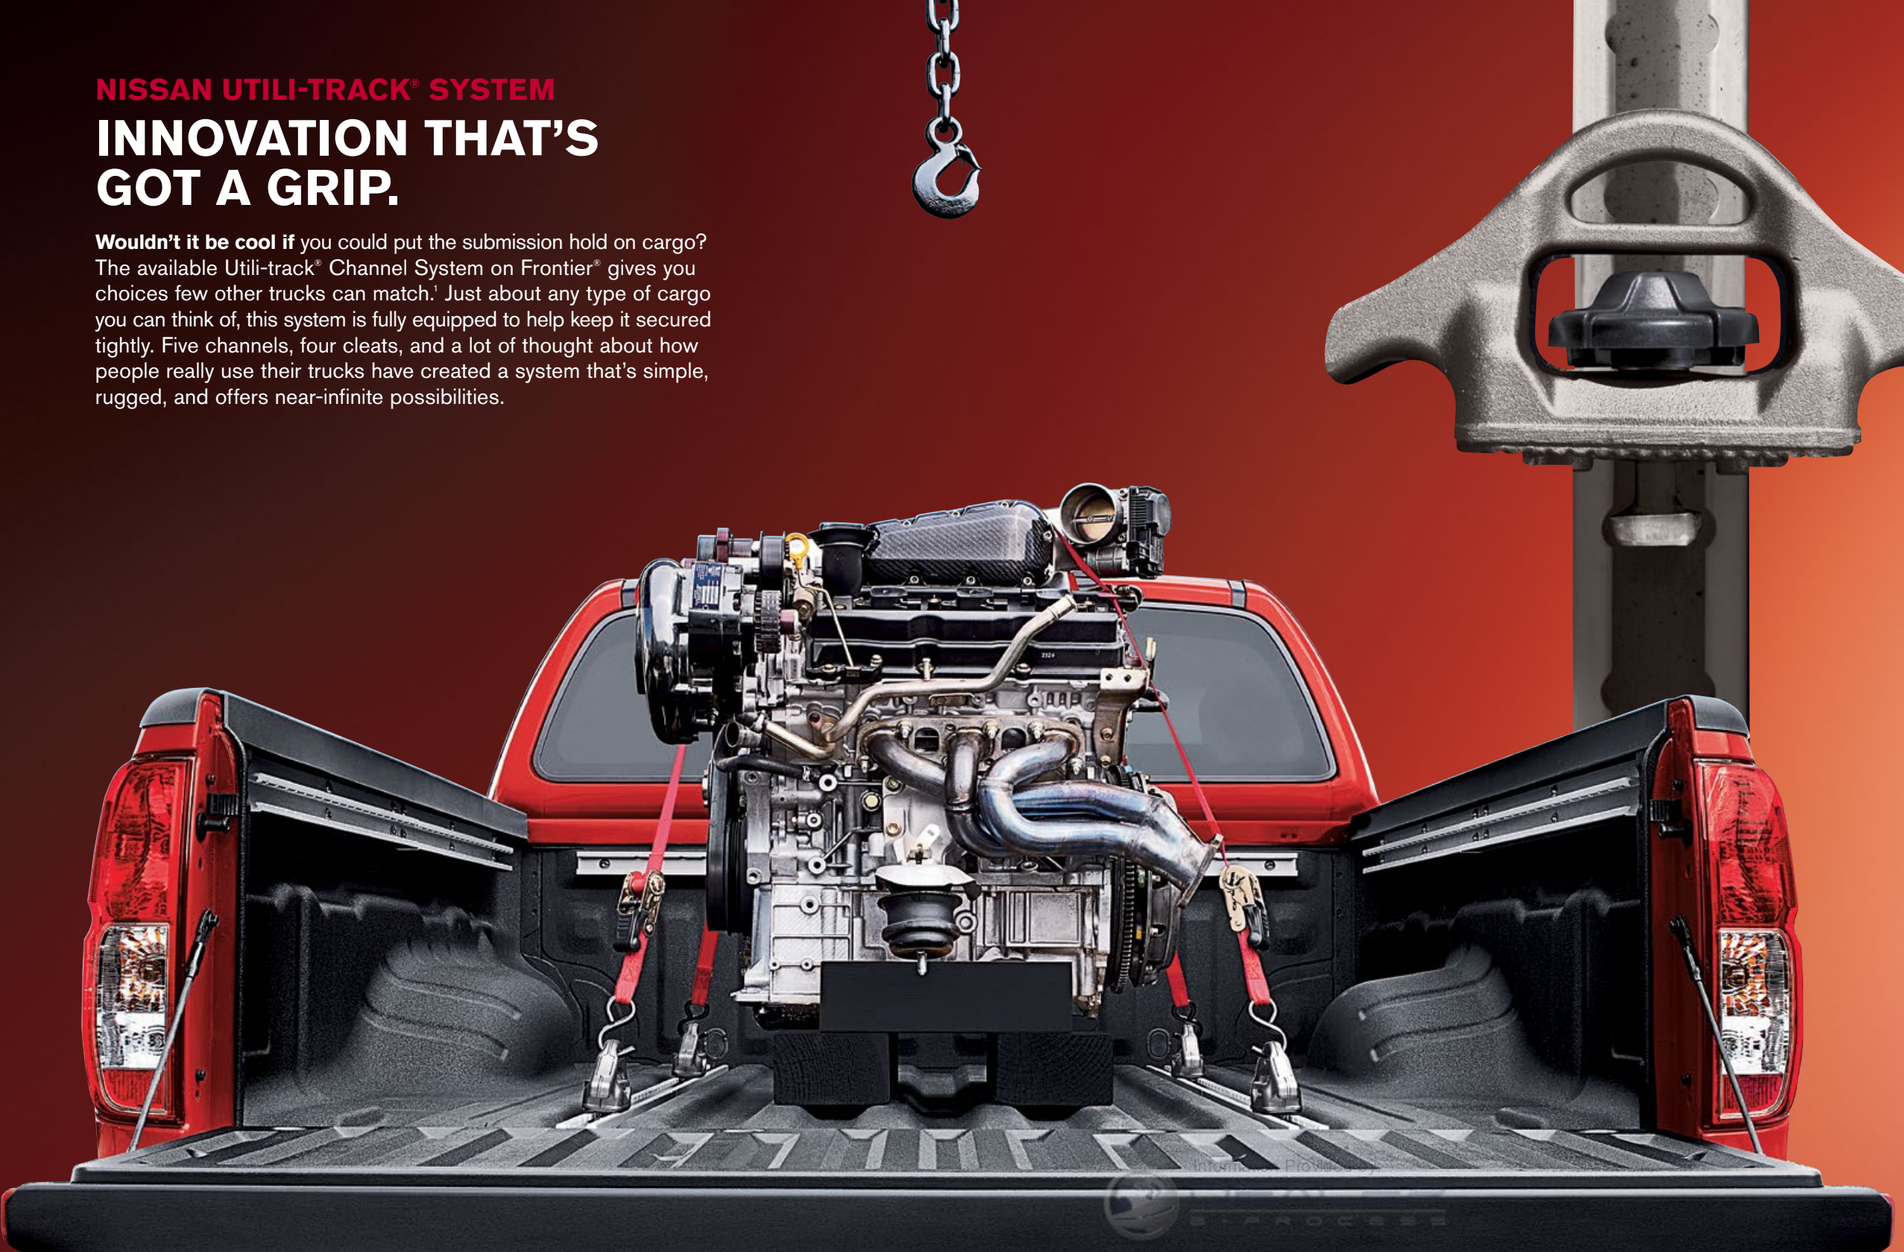
Electronic locking rear differential. When 4x4 mode just isn’t enough, push the button to activate the electronic locking rear differential. This ultimate off-road feature delivers equal power to both rear wheels to boost traction and help keep your truck moving forward. When engaged, it works in conjunction with the 4-wheel Active Brake Limited Slip (ABLS). So while the locking rear differential keeps the rear wheels powered to move you ahead, ABLS helps give you the traction you need up front to help maintain steering control.

[1] PRO-4X® models with automatic transmission only. Bilstein® is a registered trademark of ThyssenKrupp Bilstein GmbH.

NISSAN UTILI-TRACK® SYSTEM

INNOVATION THAT'S GOT A GRIP.

Wouldn't it be cool if you could put the submission hold on cargo? The available Utili-track® Channel System on Frontier® gives you choices few other trucks can match.[1] Just about any type of cargo you can think of, this system is fully equipped to help keep it secured tightly. Five channels, four cleats, and a lot of thought about how people really use their trucks have created a system that's simple, rugged, and offers near-infinite possibilities.



LOADS OF ACCESSORIES

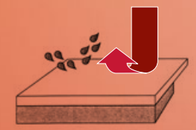
There's also a full line of available accessories to help you get even more out of Utili-track,® including a Sliding Tool Box,[2] a Sliding Bed Divider, and a Sliding Bed Extender.

4 CLEATS

Frontier®'s four heavy-duty forged aluminum cleats easily slide in the channels for unmatched flexibility to tie things down – and the strength to hold them.

5 CHANNELS

Unmatched versatility comes in the form of five channels – including two channels in the floor, a feature few competitors can match. And since you can lock the cleat anywhere along the rail, Frontier® makes sure you find the best position to secure whatever you bring along.



SPRAY-ON BEDLINER

Adding to the incredible versatility of the bed, the available spray-on bedliner is applied at the factory – so you know it's done right. Fade- and weather-resistant, it's a rugged, non-skid surface that adheres directly to the bed to help prevent rusting and protect the truck's bed.

[1]Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle. [2]Tool Box Tray shown in photo is sold separately. See your Nissan dealer for more information.

BRING YOUR CAVE ALONG WITH YOU.

Bluetooth®

Comfort, entertainment, cup holders – they're all here. Whether on the job or on the go, Frontier® gives you everything you need to make the space yours. A great-looking interior plus an available sporty, leather-wrapped steering wheel with cruise control and audio adjustments – all the better to crank up the available Rockford Fosgate®-powered audio system, which features 10 speakers,[1] including subwoofers. The available[2] Bluetooth® Hands-free Phone System lets you make and take calls with your hands on the wheel and listen to calls through the audio system's speakers.[3] Available Dual Zone Automatic Temperature Control (ATC) lets you and your passenger set your own climates. With this level of comfort and convenience, when you get where you're headed, you might not want to get out.

[1]Crew Cab only. [2]Standard on all models except Frontier S King Cab® with manual transmission. [3]Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. Rockford Fosgate® is a registered trademark of Rockford Corporation.

Nissan Frontier® PRO-4X® Crew Cab shown in Graphite Leather with optional equipment.

IT'S LIKE HAVING EYES IN THE BACK OF YOUR TRUCK.

What if you had some help seeing objects directly behind you? The available RearView Monitor automatically activates whenever you're in Reverse, helping you line up your approach to a trailer.[1] Now that's handy. Plus, the available Rear Sonar System beeps when it senses a nearby object while backing up and increases in frequency the closer you get to help you maneuver in tight spaces.[2]

[1]Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. [2]The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object.

LOAD IT ALL IN THE CREW CAB.

Frontier® Crew Cab. Space or comfort? Why not both? Forward-hinged doors make for easy entry, and a 60/40 split rear bench allows seating for five and folds easily to create a large, flat surface. Or you can flip up the rear-seat cushions for more storage room. There's also an under-seat storage tray that's removable for even greater versatility.

FOLDS FLAT

FLIPS UP

Provided by:

Nissan Frontier® SL Crew Cab shown in Steel Leather.

GO WIDE WITH THE KING CAB.®

Frontier® King Cab.® Smart design means rear doors that give your passengers easy access to the cabin. And with no B-pillars, you also get a huge opening for larger-than-life items. The two rear seats face forward or flip up and out of the way to reveal a wide open space for cargo.[1]

[1]Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

Nissan Frontier® PRO-4X® King Cab® shown in Graphite Steel Cloth.

Information provided by

KEEP IT UNDER WRAPS.

When it comes to keeping your cabin tidy and your gear safe from prying eyes, Frontier® gives you some smart options, including (1) a multi-level center console, (2) removable storage under the rear seats, and (3) a big, dual-level glove compartment.[1]

[1]See Specifications section for availability. Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

MONITOR

Smart technologies help monitor conditions. Like an available rearview camera that helps you see something directly behind you or a system that helps ensure you're travelling on properly inflated tires.

Tire Pressure Monitoring System[1]
Available Automatic On/Off Headlights
Available RearView Monitor[2]
Available Rear Sonar System[3]

RESPOND

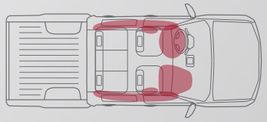
Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.[4]
Traction Control System helps reduce wheelspin in low-traction situations.
Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.
Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.
Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.[5]

PROTECT

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.

Six Standard Air Bags[6]
LATCH System (Lower Anchors and Tethers for CHildren)



Six Standard Air Bags[6] Nissan Advanced Air Bag System has dual-stage supplemental front air bags with seat belt and occupant-classification sensors.[6] Additionally, Frontier has front seat-mounted side-impact supplemental air bags,[6] and roof-mounted curtain side-impact supplemental air bags with rollover sensor.[6]

Available RearView Monitor Whether you're hitching to a trailer or fitting in to a tight parking space, it's like an extra pair of eyes where you need them most.[2]

snug kids. Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at **NissanUSA.com/SnugKids.**

[1]TPMS is not a substitute for regular tire pressure checks. [2]Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. [3]The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object. [4]VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. [5]Brake Assist is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to be in control of the vehicle at all times. [6]Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. And please see your King Cab® Owner's Manual for specific information about the safest way to secure a child restraint in a Frontier® King Cab.® Air bags will only inflate in certain accidents; see your Owner's Manual for more details. Inflated air bags shown for illustration purposes only, actual coverage area may differ. Air bags deflate after deployment.

BUYING/OWNING

Nissan Motor Acceptance Corporation. Whether you're buying or leasing, you'll find attractive rates and flexible terms to make your purchase more accessible.

College Grad Program. Ask about our special new vehicle pricing available to individuals up to two years after graduation.

Active and Reserve US Military Program. Ask about eligibility for our fixed discount on new vehicle pricing available to those serving our country.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile (whichever occurs first) basic coverage and 5-year/60,000-mile (whichever occurs first) powertrain coverage. Terms, conditions, and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus.® For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus.® This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they're the only parts to carry Nissan's factory-backed limited warranty.

Nissan Mobility Assist. This program offers reimbursements toward the purchase and installation of certain mobility assistance products for program-eligible Nissans. Go to **NissanUSA.com/mobility** for more info.

Nissan's environmental action plan focuses on several key areas. Increasing production of Zero Emission vehicles, including the 100% electric LEAF.® Improving fuel efficiency through our PUREDRIVE™ measures. And reducing the environmental impact of manufacturing, as seen at our energy-efficient, low-emissions paint plant in Tennessee. For more information, log on to **NissanUSA.com/green**

NISSAN
GREEN PROGRAM

At **NissanUSA.com,** you'll find virtual product demonstrations, a way to "build your own Nissan," a dealer locator, and more information about key Nissan support services. Or if you'd prefer, call **1-800-NISSAN-3** for answers to specific questions about Frontier® or any other Nissan vehicle. The Nissan names, logos, product names, feature names, and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries. **Tread Lightly!**® **Please. Always wear your seat belt, and please don't drink and drive.** ©2014 Nissan North America, Inc.
